

SKYWAY Tube Couplers

SUPERIOR BENEFITS

- Safe through constant high quality manufacture, guaranteed in accordance with ISO 9001
- Durable
- No maintenance
- Easy to assemble
- Cost-saving due to the fast and simple erection and dismantling
- Conforms to national and international standards such as EN 74-1
- Traceable by the production code stamped into the coupler
- Life-time protection against corrosion (NEN standard for corrosion protection)

The ERREM coupler has a strong reputation reinforced through its speed, safety, quality, durability and reliability.

Scaffolding solutions

Skyway concentrates on safety, quality, innovation and flexibility. Whether it is in the development, manufacture or sales of scaffolding.

All Skyway products are of the highest quality and supported by professional technical backup and service.

We would be pleased to develop a made-to-measure solution for your specific application or scaffolding requirements.

SKYWAY

Tube Couplers

Speed, Safety, Quality, Durability and Reliability

Product numbers and technical details for ERREM couplers

P-number	Product Description	Ø	Weight KG
402-02-WD6	Right-angle coupler, fixed wedge	48-48	1,50
412-02-WD6	Swivel coupler, fixed wedge	48-48	1,70
422-01-WD6	Sleeve coupler, fixed wedge	48-48	1,10

Different diameters on request

Right-angle coupler:
right-angle connection

Swivel coupler:
angle connection

Sleeve coupler:
lengthwise connection

Parallel coupler:
parallel connection
